EDUCATION

University of Mumbai

B.Sc Computer Science

Thakur College of Science and commerce

2020 - 2023

CGPA: 8.01

SKILLS

Technical Skills: HTML, CSS, JavaScript, React.js, Next.js, Tailwind CSS, Node.js, Express.js, REST APIs

Tools: GitHub, VS Code

Database: MongoDB, SQL

PROJECTS

E-commerce-website | *React, Tailwind CSS, Express.js, Node.js, Mongoose, VS Code* Jan. 2024 - Present

- Product Listings: Users can easily navigate and browse through a comprehensive list of products available on the platform, ensuring they find what they need quickly.
- Product Details: Detailed information about each product is readily accessible, allowing users to make informed purchasing decisions based on specifications, images, and descriptions.
- Cart Management: Users have the flexibility to add desired products to their shopping cart with a simple click, streamlining the shopping process. They can effortlessly remove items from their cart.
- New users can easily create an account by registering with their email address and password and registered users can log in securely to their accounts. The login functionality verifies user credentials against the stored data in the MongoDB database. [Frontend-Code](#) [Backend-Code](#)

Todo CRUD application | *React, Tailwind CSS, VS Code* Sept. 2024

- Local Storage: All task data is stored locally using the browser's local storage mechanism. This ensures that the user's to-do list is preserved even if they close the browser or navigate away from the application.
- This project that allows you to perform CRUD (Create, Read, Update, Delete) operations on a simple data structure. The component uses local storage to persist the data between sessions. [Live-link](#) [Code](#)

YouTube-clone | *React, Tailwind CSS, Rapid API, VS Code* Oct. 2023

- Youtube-clone This application is fully functional and responsive.
- Users can search for a video based on their preferences in this application, and afterward, the results will be displayed based on the search query.
- Users can watch the videos by clicking on the thumbnail. [Live-link](#) [Code](#)

WORK EXPERIENCE

Web Developer Intern | *Capritech Private Limited* Sept. 2024 - Present

- Collaborated with the development team to design and implement frontend components using HTML, CSS, and JavaScript.
- Utilized modern frontend frameworks such as React, Next.js, Tailwind CSS and Bootstrap to create dynamic and interactive user interfaces.
- Engaged in version control and collaborative development processes using Git and GitHub, facilitating seamless teamwork and code management.
- Collaborated with backend developers to integrate frontend and backend components, ensuring seamless functionality and data flow across the application stack.
- Expanded knowledge and skills to include backend development using Node.js and Express framework, building RESTful APIs to support frontend functionalities.
- I have gained valuable hands-on experience in frontend development technologies and methodologies. This opportunity has not only strengthened my technical skills but also honed my ability to work effectively in a collaborative team environment.
