EDUCATION

University of Mumbai
B.Sc Computer Science

Thakur College of Science and commerce   2020 - 2023
                                                                              CGPA: 8.01

SKILLS

Technical Skills: HTML,CSS, JavaScript, React.js, Bootstrap, Tailwind CSS, Node.js, Express.js, REST APIs
Tools: GitHub, VS Code,Tailand,Postman
Database: MongoDB , SQL

PROJECTS

Social Media Web-Application | *React,Tailwind CSS,Express.js,Node.js,Mongoose,VS Code* April.2024 - Present

- Built a social media app that revolutionizes online interaction with intuitive features and robust admin controls.
- Users can create accounts by providing necessary details or log in using existing credentials.
- Registered users can create, edit, and delete their posts.Posts can include text and images.
- Users can express their approval/disapproval by liking or disliking posts.Users can see who liked and disliked their posts.
- Posts are visible to users only after admin approval.
  Live Link

E-commerce-Application | *React,Tailwind CSS,Express.js,Node.js,Mongoose,VS Code* Jan. 2024 - March 2024

- Product Listings: Users can easily navigate and browse through a comprehensive list of products available on the platform, ensuring they find what they need quickly.
- Product Details: Detailed information about each product is readily accessible.
- Cart Management: Users have the flexibility to add desired products to their shopping cart with a simple click, streamlining the shopping process.they can effortlessly remove items from their cart.
- New users can easily create an account by registering with their email address and password and registered users can log in securely to their accounts. The login functionality verifies user credentials against the stored data in the MongoDB database.   Frontend-Code Live Link

YouTube-clone | *React, Tailwind CSS, Rapid API, VS Code* July. 2023

- Youtube-clone This application is fully functional and responsive.
- Users can search for a video based on their preferences in this application, and afterward, the results will be displayed based on the search query.

WORK EXPERIENCE

Frontend Developer | *Intern at CapriTech Global Services Pvt. Ltd.*   October. 2023 - March 2024

- Utilized modern frontend frameworks such as React ,Next.js,Tailwind CSS and Bootstrap to create dynamic and interactive user interfaces.
- Engaged in version control and collaborative development processes using Git and GitHub, facilitating seamless teamwork and code management.
- Collaborated with backend developers to integrate frontend and backend components, ensuring seamless functionality and data flow across the application stack.
- Expanded knowledge and skills to include backend development using Node.js and Express framework, building RESTful APIs to support frontend functionalities.
- I have gained valuable hands-on experience in frontend development technologies and methodologies. This opportunity has not only strengthened my technical skills but also honed my ability to work effectively in a collaborative team environment.

CERTIFICATE/TRAINING

Frontend Development from —— Simplilearn

Web Development from —— Internshala

SQL —— Spoken Tutorial (IIT BOMBAY)

VOLUNTEERING

NSS Volunteer —— Thakur College of Science and Commerce

Year- 2021-2022
